There you are again, Do you sleep at night,

A Change of your mind, having another fight,

Bringin Me Down

Brain snaps at any time, baby it's no prize,

Unknown future for you, you're always a surprise,

Chorus

Why do you keep, bringin me down,

Off my back, I don't need you around,

I don't know why you treat me this way,

The things you do, the words that you say,

When you cry in anger, you never knew,

If you looked back, you'd find it was you,

Bringin Me Down

You pale when next to others, You're never wrong,

Your wits have left you, How did you live this long,

You come off all wierd, you just aint right,

Do you hear voices, they speak in the night,

You try to ignore them, of that, you got good,

You better breathe now, if you only could,

You fool some people, it hides for a while,

It doesn't take long, it's your last mile,

Bringin Me Down
